Re: Cultus Lake Park Zoning Bylaws

Mr. Dave Renwick, Chair, Cultus Lake Park Board

Dear Mr. Renwick and CLPB Members,

I appreciate the work done by staff to compare the current Cultus Lake Zoning Bylaw to the Cultus Lake Park Specified Area Bylaw 1994.

My hope is that the Board will follow through with a request to have the Fraser Valley Regional District reverse some of the amendments that were made to the 1994 Bylaw.

Many of the residents of Lakeshore Drive agree that R3 – waterfront residential heights should be reduced from the current 6.7 m maximum (22 feet). Staff is recommending a change to the definition of “grade” and this may make the recommendation of 5.8m(19 feet) reasonable.

The 1994 Bylaw specified 5.2 m(17 feet) to 5.8m(19feet) depending on the roof type and this could be preferable to just changing it to 5.8m (19 feet).

The current Bylaw height restriction for R-4 (non-waterfront properties on Lakeshore) without a change in the definition of grade or a reduction in the allowable height of 8.53m(28 feet) will have a very negative impact on Munroe Avenue residents.

One of the items not included in the current Bylaws, but clearly stated in 1974 for R-2, R-3 and R-4 was that “Posts supporting balconies shall not exceed .183m in breadth, depth or diameter”. We can now see a dramatic example of posts that look more like walls and these have a very negative impact on their neighbours. (photo attached) Perhaps you could include this provision in your request for FVRD to review the zoning Bylaws.

Thank you very much.

Cultus Lake, BC

Dear Joe

The Cultus Lake Business Association executive has reviewed the Sign Policy and is concerned that this could apply to the businesses in the Park. For instance paragraph 2 of the Policy states "signage must be aligned with Cultus Lake Park colour and brand standards". The CLBA would like the Policy to include the fact that businesses are not included in this Policy. We also feel that a sentence should be added saying that all existing signage on businesses, including traffic signs are acceptable.

If this is not the Board's intention then businesses will need to know, before this is passed, what the Board will want changed at each Tenancy.

### REPORT/RECOMMENDATION TO BOARD

**DATE:** February 16, 2022 **FILE:**

**SUBMITTED BY:** Erica Lee, Chief Financial Officer

**SUBJECT:** 2021 Financial Fourth Quarter Report

---

#### **PURPOSE:**

To provide the Board with an update on financial results for the Fourth Quarter of 2021.

#### **RECOMMENDATION:**

***THAT** the Cultus Lake Park Board receive the Financial Fourth Quarter Report for information.*

#### **DISCUSSION:**

The financial results for the Fourth Quarter of 2021 are being provided to the Board for information and circulation. Included with this report is a consolidated balance sheet listing the assets and liability of Cultus Lake Park, a consolidated income statement and income statements for each business unit. The income statements provide some additional information for variances though it is not exhaustive. Further information regarding specific variances can easily be provided as requested by the Board or public.

As the Fourth Quarter results are typically not reported on until the completion of the annual audit, the information provided with this report is in a draft position. Finance staff are currently working through the audit preparations which includes ensuring all expenses and revenues for 2021 are recorded. Work has been performed to review variance and review accounts for necessary adjustments, however, it can be expected with more review these numbers will change when the final 2021 Financial Statements are presented to the Board, later this year, for approval. Preliminary results forecast a positive financial position for 2021 and while they should be read with caution, Finance staff anticipate final results to also be in a positive position.

#### **STRATEGIC PLAN:**

This report does not impact the Board's Strategic Plan Initiative.

### REPORT/RECOMMENDATION TO BOARD

**DATE:** February 16, 2022 **FILE:** 0550-70  
**SUBMITTED BY:** Erica Lee  
Chief Financial Officer  
**SUBJECT:** 2021 Parking Lot Revenue Fourth Quarter Report

---

#### PURPOSE:

To provide the Board with an overview of parking revenue for the Fourth Quarter of 2021.

#### RECOMMENDATION:

**THAT** the Cultus Lake Park Board receive the 2021 Parking Lot Fourth Quarter Report for information.

#### DISCUSSION:

Parking lot revenue, net of GST, for the Fourth Quarter totaled \$8,535. This is a slight decrease of approximately \$1,210 over parking revenue for the Fourth Quarter of 2020. Parking expenses, net of GST, for the Fourth Quarter totaled \$6,825 which is a decrease of \$4,050 to expenses in the Fourth Quarter of 2020.

Parking revenue, net of GST, for all of 2021 totaled \$946,024 which is an increase of \$427,800 or 82% over 2020's Parking revenue, net of GST of \$518,220. This increase is attributed to a switch to only allowing hourly parking rather than daily parking and due to Covid-19 closures that occurred in 2020. The tables below show the year-to-date remittance statements (1), revenue (2), expenses (3) and net revenue (4).

#### STRATEGIC PLAN:

This report does not impact the Board's Strategic Plan Initiative.

### REPORT/RECOMMENDATION TO BOARD

**DATE:** February 16, 2022 **FILE:** 0550

Manager of Sunnyside Campground & Accommodations

**SUBJECT:** 2021 Campground and Cabins Fourth Quarter Report

---

#### PURPOSE:

To provide the Board with an update on the Campground and Cabins operations for the Fourth Quarter of 2021.

#### RECOMMENDATION:

***THAT** the Cultus Lake Park Board receive the Campground and Cabins Fourth Quarter report for information.*

#### DISCUSSION:

This report provides a summary of the events and financial analysis of the revenue received for October, November, and December 2021 compared to the same time period in 2020 for Sunnyside Campground and the Cabins at Cultus Lake Park.

##### Sunnyside Campground

The Fourth Quarter of 2021 generated approximately \$ 12,009 higher revenue compared to the same time period in 2020. This increase was due to the warm weather we experienced in early October, as well as higher occupancy rate during Thanksgiving weekend.

The miscellaneous revenue that is generated from site bookings (reservation fee, pets, parking, firewood) increased in 2021 by \$13,727.

Twin Maple Construction has been awarded the Washroom 7, and 8 renovation projects. Work is now underway in preparation of the upcoming season.

##### Cultus Lake Cabins

The Fourth Quarter of 2021 saw an increase of \$750 compared to 2020. Due to travel restrictions brought on by the road damage and flooding in November, several cabin reservations had to be cancelled or moved to a later date.

***THAT** the Cultus Lake Park Board receive the Campground and Cabins Fourth Quarter report for information.*

#### DISCUSSION:

This report provides a summary of the events and financial analysis of the revenue received for October, November, and December 2021 compared to the same time period in 2020 for Sunnyside Campground and the Cabins at Cultus Lake Park.

##### Sunnyside Campground

The Fourth Quarter of 2021 generated approximately \$ 12,009 higher revenue compared to the same time period in 2020. This increase was due to the warm weather we experienced in early October, as well as higher occupancy rate during Thanksgiving weekend.

The miscellaneous revenue that is generated from site bookings (reservation fee, pets, parking, firewood) increased in 2021 by \$13,727.

Twin Maple Construction has been awarded the Washroom 7, and 8 renovation projects. Work is now underway in preparation of the upcoming season.

##### Cultus Lake Cabins

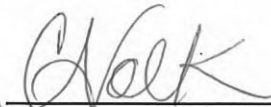

The Fourth Quarter of 2021 saw an increase of \$750 compared to 2020. Due to travel restrictions brought on by the road damage and flooding in November, several cabin reservations had to be cancelled or moved to a later date.

### REPORT/RECOMMENDATION TO BOARD

**DATE:** Feb 16, 2022 **FILE:** 0550

**SUBMITTED BY:** Warren Mazuren  
Fire Chief, Cultus Lake Volunteer Fire Department

**SUBJECT:** 2021 Fire Department Fourth Quarter Report

---

#### **PURPOSE:**

To provide the Board with information on the activities of the Cultus Lake Volunteer Fire Department for the months of October, November, and December of 2021.

#### **RECOMMENDATION:**

***THAT** the Cultus Lake Park Board receive the 2021 Cultus Lake Volunteer Fire Department Fourth Quarter report for information.*

#### **BACKGROUND:**

The Fourth Quarter of 2021 was about average in call volume compared to last year's Fourth Quarter.

There were six (6) calls in October, sixteen (16) calls in November, and six (6) calls in December of 2021. Last year there was twenty (29) calls in the Fourth Quarter.

Seven (7) calls were in the "FVRD Electoral H", six (6) calls were in the Park, and eleven (11) calls were on Soowahlie First Nation.

The CLVFD received a modified golf cart thanks to the generous donations of the Chilliwack Lions Club. In addition, the CLVFD received a Basket Litter Wheel also by generous donation of the Chilliwack Lions Club.

The Salvation Army Annual Canned Food Drive was a great success.

The CLVFD continued with maintenance training as the requirements in Playbook. In house training was utilized during these months as most of the training opportunities we usually attend were postponed.

CLVFD was busy dealing with the November flooding events in the area and had received six (6) calls over the course of the flooding.

As a reminder, members of the public may come across an emergency scene at any time. There is no time at an emergency to delay. If you arrive at a scene where a firehose is placed across a street or way of travel, you are not legally allowed to drive over it. This puts firefighters and members of the public at extreme risk.

### REPORT/RECOMMENDATION TO BOARD

**DATE:** February 16, 2022 **FILE:** 0550

**SUBMITTED BY:** Amanda Nadeau  
Communications, Media and Events Coordinator

**SUBJECT:** Administrative Policy – Signage Standardization Policy

---

#### **PURPOSE:**

The purpose of the report is to provide the Board with an Administrative Policy with respect to standardizing the implementation of signage throughout the community.

#### **RECOMMENDATION:**

***THAT** the Cultus Lake Park Board approve the Signage Standardization Policy.*

#### **DISCUSSION:**

In September 2021, staff identified the importance of introducing a policy to guide staff in the design and execution of signage throughout Cultus Lake Park to create uniformity. In alignment with Transport Canada, staff outlined the attached guiding document with respect to the process, material, placement, and maintenance of all signage. Following this, staff began cataloguing the signs located throughout the residential and public areas of the park into two documents.

The Signage Inventory is a comprehensive document clearly identifying each type, material, size, units, pole dimensions and damages of each sign in a specific area. In addition, staff have included any needed action to repair damage and updates required as per the policy. This will enable staff to prioritize repairs and/or replacements efficiently.

The Graphic Sign Index separates all signage by three categories Parking and Stopping, Regulatory and Miscellaneous. Each sign is given a unique code which will assist in identifying the correct signage as per the Signage Inventory document. This working document can be updated to reflect any necessary changes to current signs and the introduction of new signs throughout the park.

Staff would like to implement a policy to standardize design and implementation of signage to aid in obtaining motorist compliance, enhance enforceability and increase recognition of key messaging throughout the community.

<b>Title:</b>	<b>Signage Standardization Policy</b>

#### APPROVALS

<b>Approval Date:</b>	<b>Approved by:</b>
<b>Amended:</b>	<b>Approved by:</b>
<b>Amended:</b>	<b>Approved by:</b>
<b>Amended:</b>	<b>Approved by:</b>

## **PURPOSE**

This policy is intended to provide direction on implementation and installation of signage in the residential and public areas of Cultus Lake Park.

## **DESIGN PROCESS**

Signage shall not be permitted in facilities and on lands in Cultus Lake Park without prior written approval from Cultus Lake Park. Organizations or persons proposing to install signage must submit the completed Signage Application Form, including the design of the proposed signage. Signage must be aligned with Cultus Lake Park colour and brand standards, with the exception of standard warning signage. Applications that meet all requirements may be approved by the Chief Administrative Officer or other designate.

## **MATERIAL**

Roadway signs shall be made of sheet aluminum and in some situations can be made of steel for a magnetic surface. Signage located near roadways or at the entrance of paid parking lots should be coated with a reflective surface to aid in visibility for night driving. If a sign is larger than 3ft x 3ft, it must be placed on a plywood backing for additional support. All plywood backings must be painted white prior to signage installation.

Decals can be used on surfaces where signage is required to instruct an individual on a process or provide information that is seasonal or subject to change.

Posters, advertisements and flyers should only be installed on Public Bulletin Boards, unless otherwise approved by the Chief Administrative Officer. Posted items shall be no larger than 8.5 x 11 unless otherwise approved by the Chief Administrative Officer or other designate either for business or community related postings. Posting material must be dated and be replaced and/or removed every 30 days.

## **STANDARDIZATION OF PLACEMENT**

A sign should be within a driver's field of vision in order to command attention. A driver traveling at the speed limit must have time to comprehend the sign and have adequate time to execute an appropriate response. Signs should not block sight lines for traffic entering or leaving a roadway. Standard placement may be considered under the following subheadings:

### **SIDE OF ROADWAY**

The general rule is to locate signs on the right-hand side of the roadway, where drivers are accustomed to seeing them. In the situation when there is poor visibility of a primary sign, it may be desirable to supplement it with a second sign placed on the left side of the roadway. This is common on divided roadways and on one-way streets with two or more lanes.

## **HEIGHT**

All signs should be mounted with the following standard: bottom of the sign 1.5m above the nearest traveled roadway edge. The height may be increased to 2m under special circumstances approved by the Chief Administrative Officer or other designate, such as an obstruction in the line of sight. Where two or more signs are required on the same post, the height to the bottom of the lowest sign may be reduced by 0.3m. On a road with curb and gutter and/or sidewalk, or where parking or pedestrian movements are likely, the lowest sign in any assembly should be mounted 2.1m above the sidewalk or shoulder. Signs should not exceed height of 8ft from the ground or paved surface. Under special circumstances, total height may be adjusted if approved by the Chief Administrative Officer or other designate.

## **ANGLE**

All signs should be mounted approximately at right angles to the traffic flow and facing the traffic they are intended to serve, except urban Parking and Stoppings, which should be nearer parallel to the traffic flow.

Parking control signs are used to notify the motorist of parking restrictions as specific on the sign. The sign should be erected where the restriction is in effect and be oriented to 30 to 45 degrees from the curb line. Signs without arrows should be placed at 90 degrees to the roadway. Parking control signs with arrows should be repeated at approximately 100m intervals.

## **SIGN POSTS AND BASES**

Wooden (4ft x 4ft) and metal posts may be used. Concrete sign bases must be flush with the graded ground level or be located behind roadside barrier. More than one post will generally be required if a sign is 1.2m or more in width or has an area greater than about one square meter.

## **MAINTENANCE**

A clean, legible and properly mounted sign in good condition commands respect of drivers and visitors. It is important that signs be well maintained. To ensure proper maintenance, a suitable schedule should be established for the inspection. Cleaning of signs should occur at least twice a year and signs should be replaced immediately when damaged or missing. One inspection per year should be carried out at night to ensure adequate brilliance of reflectorized surfaces. Care should be taken that vegetation does not obstruct the sight line of a traffic sign.

### REPORT/RECOMMENDATION TO BOARD

Communications, Media and Events Coordinator

**SUBJECT:** Vedder Mountain Bike Festival Special Event

---

#### PURPOSE:

**THAT** the Cultus Lake Park Board approve waiving parking fees for twenty-five volunteers for the duration of the three-day event.

#### DISCUSSION:

The Vedder Mountain Bike Festival event organizers are requesting Board approval for the Special Event to be held from Friday, May 13 to Sunday, May 15, 2022. The event organizers would have temporary access to the lower gate at Main Beach on Friday, May 13, 2022, to complete placement of the beer garden fencing, vendor tents and award display. The race will commence on Saturday, May 14 to Sunday, May 15, 2022 from 7:00am to 6:00pm daily.

The event organizers, Fraser Valley Mountain Bikers Association have successfully facilitated the Vedder Mountain Bike Festival since 2016, with no damage to the greenspace or facilities.

The event organizers will be applying for a Special Occasion License (SOL) through the Liquor and Cannabis Regulation Branch (BCLCRB) for the operation of the beverage garden. A beverage garden was approved by the Board for the 2016, 2017, 2018 and 2019 events. The BCLCRB approval will require that all regulations be in effect, including security, fencing and licensed servers. The RCMP will be made aware of the SOL and may, from time-to-time, be present at the event in addition to security personnel. The SOL requests that organizers provide access to food sales to accompany the provision of a beverage garden. The event organizers will be working with the Lakeside Beach Club for food sales and an after party. They are promoting the Park's accommodation facilities (Sunnyside Campground and Cabins at Cultus Lake Park) to event participants.

#### Beverage Garden Details

- Entire beverage garden will be fenced with orange snow fencing.
- No minors will be permitted in the beverage garden (need to be 19+ years of age).
- The entrance/exit will be manned by a professional security guard, who will be monitoring numbers and checking IDs.
- The beverage garden dimensions will be 100 feet by 50 feet, with a max capacity of 300.
- The required signage will be posted, which includes: no minors, drink prices, drink limits per purchase, serving hours, entrance/exit.

- Special Event Server Certificate or Serving it Right Certificate will be provided to the Park office no later than five business days prior to the event.

Streetwise Traffic Controllers will be utilized for the race route along Columbia Valley Highway and Sunnyside Boulevard and will provide staff with the Ministry of Transportation and Infrastructure permit upon approval. The organizers have submitted a map of Cultus Lake Park showcasing the routes for each portion of the race, including the transition area and First Aid tents. The organizers anticipate approximately 200 participants, 50 spectators and 25 volunteers in attendance. The event will be required to follow the current Covid-19 Public Health Orders for outdoor events.

**RE: 2022 Vedder Mountain Bike Festival Event Details**

To the Cultus Lake Park Board and Staff,

The Vedder Mountain Bike Festival has been held for four consecutive and successful years at Cultus Lake. The Fraser Valley Mountain Bikers Association (FV MBA) would like to again stage this event out of Main Beach on the weekend of May 14<sup>th</sup> – 15<sup>th</sup>, 2022. The main event area will include: demos and vendors, a beverage garden, Lakeside Beach Club food stand, registration, an awards podium and the race finish.

Adhering to the Provincial Health Orders (of-the-day) regarding Covid Protocols, we are planning our Mountain bike races to take place on the Vedder Mountain trail network on both the Saturday and Sunday. There will be two main races during the event: the Vedder Mountain Classic (Saturday), and the EWS Enduro Qualifier (Sunday). Both of XC and Enduro events are established, annual races involving sponsored athletes. The EWS (Enduro World Series) Qualifier is an event that will attract international athletes.

Covid Safety Protocols surrounding our event and community engagement will be a key focus.

The Vedder Mountain Bike Festival is not just an event for racers and serious athletes: the Festival's group rides, bike demos, prize giveaways, kids race, beverage gardens, after party, and countless other entertainment will appeal to a much wider demographic, including families, casual bike riders, and general outdoor enthusiasts.

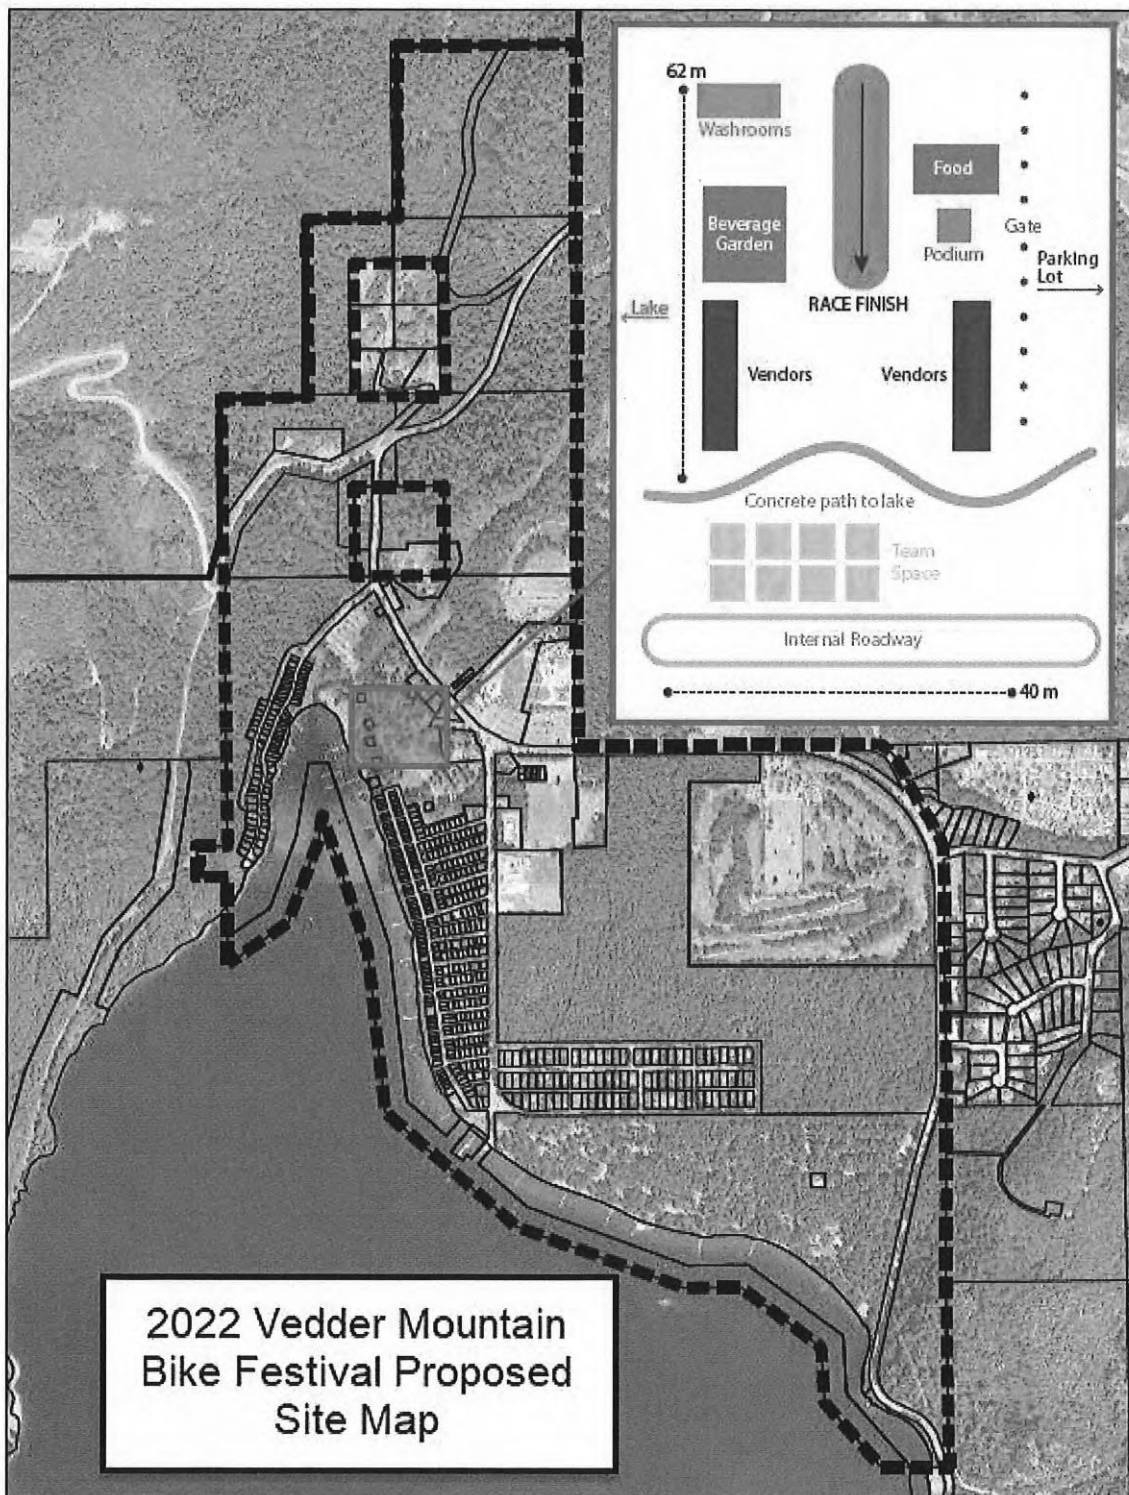

Sunnyside Campground and the Cultus Lake Cabins are being promoted as the main accommodation choices for participants. In addition, the Lakeside Beach Club is sponsoring the event, providing food on site and also hosting the after party.

Being scheduled in early May, the Vedder Mountain Bike Festival will bring visitors and revenue into the Cultus Lake Community outside of the busy season. Our goal is for the Vedder Mountain Bike Festival to continue being an annual event, running on a long-term basis, similar to the "Around the Lake" race.

Sincerely,

Matt Scott, Ernie Kliever, Ted Morton  
Event Organizers

#### DISCUSSION:

The Cultus Lake Triathlon event organizers are requesting Board approval for the Special Event to be held from Thursday, September 15 to Monday, September 19, 2022. Event volunteers and directional signage will be in place guiding participants and spectators to public parking lots based on parking availability to reduce congestion and traffic. The event organizers are requesting Board approval to waive parking fees for fifteen volunteers to park in parking lot A for the duration of the event.

The Cultus Lake Triathlon will use Beethoven's Pizza as their food provider and will be responsible for the removal of their garbage.

The organizers have submitted a map of Cultus Lake Park showcasing the routes for each portion of the race, including the transition area and First Aid tents. Dynamic Race Events anticipates approximately 700 participants, 600 spectators and 100 volunteers to attend the event. The event will be required to follow the current Covid-19 Public Health Orders for outdoor events.

Dear Mr. Lamb and the Cultus Lake Parks Board,

Thank you for the opportunity to present our event application to the Board.

Dynamic Race Events has had the pleasure of producing the annual Cultus Lake Triathlon from 2015 through 2019, having taken over the long standing event from a previous organization. In that time, we have continued to grow the event and it has become an annual favourite for the multisport community in the Pacific Northwest. With the support of Tourism Chilliwack, we hosted the Provincial Championships in 2018 and 2019. We look forward to bringing athletes back to Cultus Lake after the forced hiatus due to the global pandemic.

This event attracts 700 athletes each September on race weekend, providing a significant revenue generation for both the Park via parking, as well as an end-of-season injection for the local businesses. This economic impact stretches further than race weekend, as many athletes make the trip to Cultus Lake, as either a day trip or a training weekend, to come swim at the venue and ride and run the set courses. These extra trips convert to dollars spent locally and many times we have heard that athletes are making additional trips up with their families once they have seen the idyllic offering that is Cultus Lake.

Dynamic Race Events produces 5 multisport events annually, creating finish line experiences for over 3000 athletes a year. We strive to use as many local suppliers as possible in each of our venues, ensuring a positive working relationship with our stakeholders in each locale.

We welcome any questions or concerns about the event and look forward to returning to Cultus Lake this September and for many Septembers to come.

Best,

RE: CULTUS LAKE TRIATHLON – DYNAMIC RACE EVENTS

To The Cultus Lake Park Board,

I happily write this letter giving my wholehearted support to the application of Dynamic Race Events return to Cultus Lake for their race.

As a business in Cultus Lake, I have seen both the economic and non-economic benefits that the annual Cultus Lake Triathlon has brought to our community.

Being the owner of J. Beethoven's Pizza, I have had the pleasure to work closely with the organizers over the course of the past 6 years. It has always been important to them to use local suppliers and I am proud to be the official provider of the post-race meal for the athletes.

With the event falling on a weekend that is outside our peak season the economic benefit has translated to being one of the highest grossing days in our season.

We have also seen the benefit outside of the weekend of the event, seeing many of the racers come see the venue and practice on the bike route and swim in the lake. This results in extra benefit to surrounding businesses, but also the opportunity to showcase the hidden gem that is Cultus Lake.

If you have any questions about my letter of support, please email me at [abunnadi@gmail.com](mailto:abunnadi@gmail.com).
