

Retaining Wall Repair at 211 Lakeshore Drive

Cultus Lake Park will begin repairing the Munroe Avenue retaining wall beginning on Monday, November 21, 2022, through to Friday, December 9, 2022, which will affect both Munroe Avenue and Lakeshore Drive.

One (1) lane will be maintained for access along Munroe Avenue for residents and guests. There may be short term closures of up to approximately 30 minutes that the contractor will manage for maneuvering material and equipment to the site.

A berm will be constructed above the retaining wall parking area located on Lakeshore Drive to ensure no rocks or debris roll down the hill during construction.

Work will be completed with an excavator utilizing the Park's empty lot next to 211 Lakeshore Drive.

Should you have any questions, please contact the Manager of Park Operations, Joe Almeida at 604-847-2043 or email joe.almeida@cultuslake.bc.ca.

We appreciate your patience and cooperation at this time.
