

Bill payment service

Most banks and financial institutions offer bill payment services. Bill payment services can generally be accessed through your online banking account, an automated teller machine (ATM), telephone banking or in-person with a teller.

Note: When you pay in-person, you need to set up a bill payment service for Rural Property Taxation before you pay with a teller.

To pay your property taxes using a bill payment service you need to add Rural Property Taxation as a payee to your bank account. To add a new payee to your bank account, you need:

- Our payee name: **PROV BC - RURAL PROPERTY TAX**
- Property folio number as listed on your rural property tax notice. Enter the property folio number without spaces or decimals. For example, 012 34567.890 must be entered as 01234567890

For assistance, contact your bank or financial institution.

When you complete your payment, write down the confirmation number generated and keep it in your records in case you need to request a trace on the payment.
